

Scholarship Application

Fieldguides strives to get as many people from different financial backgrounds as it can outside. Our scholarship fund is small and is meant to supplement the amount that families can reasonably afford. We will do our best to support every child but please understand that scholarships are limited and demand can exceed availability.

To apply for a scholarship please complete and submit this form along with any other relevant conditions to be considered (i.e.: unemployment, medical expenses, etc.).

In order to make the funds available to as many children as possible, each family is asked to pay as much as they can reasonably afford.

Please complete and return the forms ASAP. All information will be kept confidential.
